- 4. Explore available streams & services***
- 5. Questions?***

How to install and setup a Roku streaming Player

Start watching in a few steps

Plug it in

Plug into HDMI® port on
HDTV

Connect to internet

Create Roku account

Installation & Setup Of Roku Streaming Player

Streaming players connect to a television or home theater system to allow viewing of video and music from online services.

An internet connection is required

Roku Setup

- How to install and setup a Roku streaming Player
- A number of models available - Choose model
- Power Pak A small black rectangular power adapter with a two-prong AC plug and a micro-USB cable attached.
- HDMI (High Definition Multimedia Interface) plug-in or cable A black HDMI cable with a standard 19-pin connector.
- Remote – number of features depends on model
- Open Box - Remove Roku device

You will need an internet connection – WiFi – will need password

You will need to create a FREE Roku account to activate your Roku device

Before you can stream content from sources such as HBO Now, Sling, Hulu, Direct TV Now etc. – the apps must be installed on your device

You will need to supply a payment method – credit card or PayPal, no charges will be made and there is no activation charge and support is free

You should choose a strong and secure password

You can have multiple devices on a single Roku account

HDMI plug-in or cable

Adapter is FREE from Roku if needed for your installation

Power pack plugged into wall outlet

Cable – USB to Streaming Stick

Use remote to select TV Input – select same input Streaming Stick is plugged into

Input

Roll over image to zoom in

Input

Select the input the Streaming Stick was plugged into

Dancing Roku Image

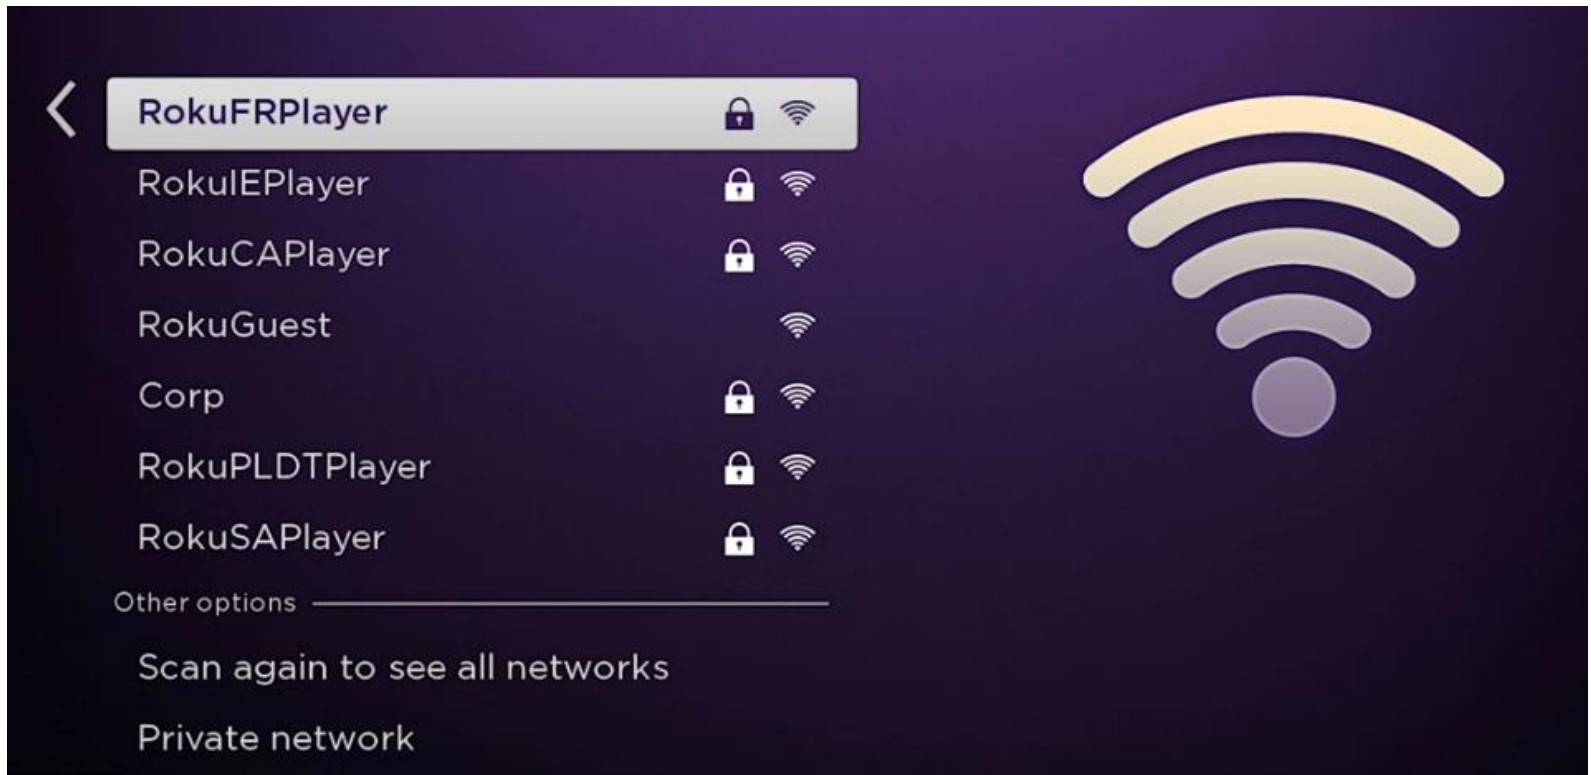

**Insert Fresh Batteries and observe the flashing light This indicates pairing
If the light does not begin flashing, press and hold pairing button for 5 seconds**
