

# Simplify Your Life By Using Your Computer

Seminar Presented by

Martha Ryan

Updated May 2007

This presentation will provide you with suggestions for using your computer to make life simpler: control spam on your computer, get rid of junk snail mail (the kind that appears in your curbside mailbox), avoiding unwanted phone calls and credit card solicitations by contacting appropriate web sites. Other hints to make life easier by using your computer/and or web sites will be given.
